## **What you should know about headstones – Bronze or Granite**

**Do you have to buy the headstone from the Cemetery or Mortuary? No!** You decide on where you want to buy it. Order it from us and we will guarantee the **cemetery will accept it.**

**Why not buy it from the Mortuary or Cemetery? Mortuaries and Cemeteries do not custom design** headstones. They give you few, fixed and limited design selections. We offer you over 150 standard designs. They charge extra beyond allowed number of words and inscriptions. We give it to you free.

**Why custom design the headstone and its inscriptions? This is your final tribute** to the life of one dear to you. Let us help you **plan and design** a memorial that you will be proud of.

**How many words can we put on the headstone? There is no limit** on the number of words, as long as space allows it, and each letter or character is at least 5/8 of an inch.

**What language can we use? We will be glad** to put on the headstone the script and characters, of **the language**, that you wish to use.

**Who will install the headstone at the cemetery? Generally, the cemetery** will do the installation for a fee. We will help you determine the fee.

**When and how will the headstone be delivered? Standard turnaround is 6-8 weeks** when you approve the **carefully made layout** and make full payment. Pictures will need additional 4-5 weeks. **We will deliver** the headstone directly to the cemetery. We accept rush order (15 working days) for \$150.

**Why is your price lower? We specialize** in producing bronze and granite headstones. Unlike mortuaries, cemeteries and memorial parks, our overhead expenses are lower. We also **decided to pass on to you the savings**, while assuring you of prompt service & superior quality.

**Do you really save on packages offered by the cemetery or mortuary? No!** You are induced to buy things you do not need or want. They limit your choice. **We will reduce** your cost.

**Will you send me the design layout of the headstone for review and approval? Yes!** Decide on any changes you wish to make. It will not be manufactured, until **you approve it.**

**How about sculpted or actual or engraved portrait? You have three choices** for placing a portrait on the headstone: **Hand-sculpted**-\$995, **photo-engraved**-\$175 and **photo-ceramic** (colored from \$290 or black and white from \$215). Requires original photo 4 x 6 or larger

**How about matching the inscription and design of another headstone? We will** customize the new headstone to match an existing one. We do the same specially for bronze plates of companion headstones.

**How soon will the cemetery install the headstone? Normally, cemeteries wait for a month** after burial, for the soil to settle down.

**How about refinishing an existing Bronze headstone? We refinish Bronze markers.** We will help you arrange with the cemetery the removal and reinstallation of the headstone.

**Do you make signs and architectural products on bronze or granite? Yes!** We also produce metal plaques, letters and signs.
